

2231 Men's 11-inch Pull-On Boot

★★★★★ 4.6 16 Reviews [Write a review](#)

Also available in a custom fit. Years of fitting stool experience have taught us that some customers' feet are not a perfect match. All too often a customer has to settle for less than a perfect fit. Red Wing's Custom Fit program offers a unique solution that allows you to order a pair of boots in two different sizes. Visit the nearest Red Wing Store to get your customized fit.

4 years

Ntfree153 Michigan May 2, 2016

Industry: Other

I have had these boots for 4 years and they have been the best boots I have owned. I had to have them resoled once in the time that I have owned them. The break in period was the usual boot once they were broke in they fit perfectly my most comfortable pair of boots.

Made in USA, Quality Boots

Jay7018 Decatur, AL, USA March 13, 2016

Industry: Oil/Gas

Just bought two pairs, to rotate my daily work boots as a welder. These boots fit great, take a beating and still look good, but most important to me, they're Made in the USA! These are the only boots I will ever wear.

Work Environment: Hot, Cold, Wet, Dirt, General Outdoor, Steel, Sparks/Slag (Welding)

Soles are less than desirable

Buford wisconsin January 10, 2016

Industry: Other

Funny how not one bad review.

Have worn these boots for 40 years now and still will continue to wear them, but! For the first time am buying online and have the opportunity to send feedback.I get a new pair annually and that is because that is as long as they last. Generally the sole is worn out at 9 mo, so traction suffers. Maybe they could recommend another model with the same comfort but better sole wear.

Am online to purchase another pair. Will wait for response before doing so.

PS I just purchased a pair in May and the soles are almost smooth already.

I agree with your review, I have an even bigger disadvantage as being a welder and notice the soles wear out sooner than later, and toes get worn from being on my knees and dragging my feet across often when working..

I am a woman but have to order under the mens because they do not even offer pull-on boots for women.

Wouldn't even dream of buying lace up, with all the slag, hot metal burning and dropping on my toes.

Great, comfortable boot

Young1566 Winchester, OH, USA October 11, 2015
Industry: Manufacturing

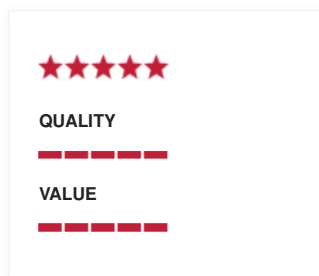

Other Machinist, farming, mechanic

I have wore nothing but Red Wing boots since i was 13. Grew up around farming, and they were all i ever saw my dad wear. This is my first pair of pull ons. Usually i always bought lace up, but wanted to try the convenience of pull ons. Took a couple weeks to get used to, since i was always used to 8 inch. But now i love them. I wear them everywhere. Whether working, or out on a date night. I honestly dont know how Red Wing stays in business. I have never had a pair last any less than 3 years. And most customers i know are the same. Great products!!

Never Leave Home without them

Kuvasz Stillwater, OK, USA April 1, 2015
Industry: Other

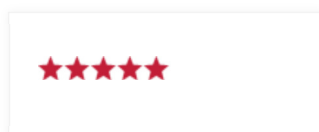

Other All kinds of industrial plants, from textile, chemical and nuclear facilities

I just bought my 8th pair in 25 years. I can imagine wearing any other work boot. The comfort, fit and durability is outstanding. I wear them every day both for my job and on the weekends working around the small farm I live on. If you are looking for a comfortable, good quality safety boot look no further.

Redwing 2231's

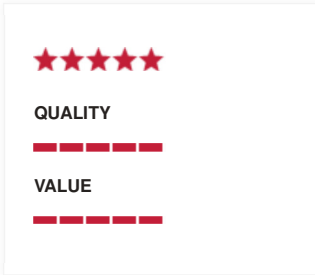

Jimmyjames1 Houston, TX. January 25, 2015
Industry: Oil/Gas

I am unable to find another par of work boots that will take the place of the redwing boot 2231. I have tried many others brands and with the length and a C width of my foot it seems to be impossible. I am looking for a water proof boot and have been unsuccessful.

Work Environment: Sparks/Slag (Welding), Cement Surface, Wet, Uneven Terrain, General Outdoor, Dry, Hot, Jagged Environment, Dirt, Smooth Surfaces, Cold, Steel

Great general work boots

NickyB69 Abingdon, MD 21009, USA January 19, 2015

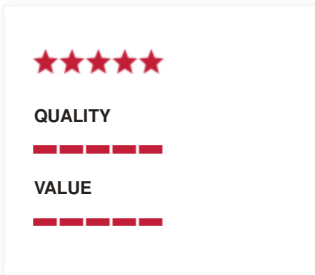

Industry: Utilities

Had these boots about a year now, great quality and breaking in was fairly easy, took some time getting used to the pull on style, but once your used to them they're just awesome. No complaints, easily got them in size 11c from the dealer

Work Environment: General Outdoor, Dirt

Excellent pair of boots.

TxJim San Antonio, TX, USA December 21, 2014

Industry: Other

I first bought a pair of Red Wing boots in the 1990's. Since then I have owned a couple through the years. My last pair of 2231's have lasted 7 years with 1 resole and are still going. I use the old ones for work/abuse and I bought me a new pair just to wear when I'm out and about. Red Wing has served me well and their customer service has treated me well. I have no complaints against them and will not buy another brand of boots. Keep up the excellent work Red Wing.
