I worked at a Auto Parts store for 8 years, these where my work shoes for 5 of the 8. They are great i had over 20 different brake rotor boxes come apart and land on my feet. These shoes never once let me down. And talk about battery acid. more then once they where covered in acid and never had a problem.

Industry: Other

These shoes have been the best shoes I have owned for work. I beat on my work shoes and they have held up exceptionally well for the 3 years I have owned them. The soles are still 100% intact after lots of walking and crawling and the uppers are still in great condition.

Work Environment: Static Dissipative/Clean Room, Cement Surface, Uneven Terrain, General Outdoor, Hot, Jagged Environment, Dirt, Smooth Surfaces, Cold, General Indoor

I have made an indent order for this 3533 Men's Oxford as my local RW shoes store does not stock this model. Still waiting for the shipment from U.S.A.

Though majority of readers agreed to the above comment, there seems to be quite a number or readers who thumbed-down. It would be helpful if they can share their views / experiences regarding this 3533 Men's Oxford.
